

Smart Solutions To Keep You Moving!

Ensign's bulk bag unloading systems are designed with features to help you move bulk materials efficiently and effectively. Whether your process requires a stand-alone unit or a fully integrated system, Ensign can do it!

Our standard products include the 1-ton manual (forklift loaded) model and the 2-ton hoist model. From there our equipment is designed to meet your specific process requirements and can discharge into Porta-Stors, Gaylords, surge bins, vacuum systems and screw conveyors.

Whatever your requirements, we look forward to providing a smart solution for you!

Key features:

- Heavy duty steel construction
- Integrated rest pan
- Easy access untie chamber
- Easily adjustable for various bag sizes
- Trolley end-stop limit switches standard on all hoist models
- Industry standard flange patterns for surge bin, vacuum and screw conveyor applications
- Many more features and options available
- Industry leading two year warranty on all parts and workmanship

See back page for additional options and specifications.
