

Smart Solutions To Keep You Moving!

The Premier Tilter is designed to increase the efficiency of vacuum unloading Gaylords or other containers. The automatic tilting feature allows for the smooth and continuous flow of material to the vacuum wand with little or no assistance from your operator.

This unit will lift up to 1000lbs at 80psi. However, the initial tilt weight can be set as required using the adjustable regulator.

Key features:

- Heavy duty frame
- Ground entry loading
- Firestone industrial air bag
- Parker pneumatic regulator
- Parker 3-position hand control valve
- 1" Flanged pivot bearings for smooth operation
- Vacuum wand holder
- Gaylord retainer
- Industry leading two year warranty on all parts and workmanship

See back page for additional options and specifications.
